Teat direction (rear)	117	outwards							inwards
Udder cleanness	107	add. teats							clean udder

Fleckvieh: VERNANDO dam
Roleva 2.lac.

Fleckvieh: VERNANDO aunt
Rikarda

VERNANDO is a late Reumut-Sohn that originates from the Fleckvieh-farm of Buerger. His dam Everest daughter Roleva impresses with both type and performance; she has finished her two lactations with in av. 11.255kg milk. Roleva was part of the Everest progeny group presented 2015 and was selected as Champion young of the VFR show 2015. Vernando unifies the qualities of his dam: He promises top conformation with great udder composite in combination with good milk performance, beef performance plus fitness. Since generations the cow family of Roleva is already very successful with both many bull dams as well as positive proven Fleckvieh sires.
