Udder cleanness	108	add. teats							clean udder

Fleckvieh ELEVATION dam Livita

Fleckvieh ELEVATION aunt Linz

The young Fleckvieh sire ELEVATION derives from the cow family of the reigning German young cow Champion Liberty. Elevation can impress particularly with his outstanding genomic udder traits. On the farm you can see in addition to his powerful dam Livita and her type strong full sister Linz also Elevation grandmother Liberty with 5 calves and great-grandmother Linda with a lifetime performance of over 140,000kg. What a demonstration of the longevity and fitness of this cow family! Especially Linda is as an exceptional cow of the Fleckvieh breed. With 13 calvings and an average calving interval of 372 days. Due to the Hutera and Reumut-free pedigree, Elevation suits perfectly for many matings!
