Performance and conformation quality are anchored in Dior's pedigree over generations. Dane, Vassli, Anibal, Hussant, Goldfinger are the exclusive sires of the young Brown Swiss bull Dior. His dam Sita is very willing to perform and pleases especially with her strong udder quality. Granddam Saskia is also convincing with her uncomplicated nature and impeccable conformation as well as appealing ingredients. From Dior we can also expect high performing daughters with suitable feet&legs and wide, appealing udders. The quick milking Dane son also leaves nothing to be desired in terms of fitness traits.
